For years we have all been guessing at the turnpike mileage of Bath county. The Fiscal Court finds it to be 150 miles and a fraction over.

In a birth notice last week an error was made. A child was born to Mr. and Mrs. Newton Cassidy instead of Mr. and Mrs. Newton Kincaid.

I have a fine upright piano, 10 years old, for sale.

JAMES GILLON.

Berry Hurt, of color, aged 22 years, son of Abe Hurt, died of consumption Saturday and was buried in the family burial ground Sunday. He was a dutiful son and a moral young man.

Harve Saunders was acquitted at Williamstown of the killing of a man named Frank at Mt. Zion, Grant county. Saunders was arrested by Constable Morris Evans near Bethel.

JNO. A. RAMSEY & CO.

Silas Corbin, of near Bethel, was a caller at this office Friday. He says that during the recent below zero weather George Boyd while crossing Flat Creek broke through the ice, and that Thornt Snelling took a violent cold from the effects of Boyd's cold bath.

All persons knowing themselves indebted to us please call and settle their accounts at once.

Rept., S. SLESNER.

Jo's ALL RIGHT.—Monday morning it was reported here that clever Jo Wright was found dead at the depot in Mt. Sterling. The report came from a boy of Preston through a brakeman stating that he thought he recognized the body to be Jo's. Of course Jo's many friends were deeply moved at the news, but their sorrow suddenly became gladness on hearing that Jo was alive and all right. The body proved to be that of Richard Johnson, a stock trader of Floyd county. It is believed by some that he was murdered and the body placed on the railroad track to be mutilated like it was an accidental death. Johnson was known to have had \$400 the evening before. There was \$12 found in his vest pocket.

SOLD OUT.—We have sold our grocery business and each of us expect to engage in some other business in the near future and in order to do so will ask you to call and settle your account at once, and oblige.

Yours,
DAWSON & BYRON.

WEATHER REMAINS.—The first substantial rise in the temperature from the late North Pole weather occurred on Wednesday of last week, but it didn't get warm enough then to spoil fresh meat out of doors. The thaw commenced rapidly Thursday, but a sheet promised for a while to again cover the country. By Friday noon the bulk of the snow was gone.

Brother & Goodpaster will save you money in housekeeping goods if you will give them a chance. Whole sets of dishes from 25c up.

COURIER-JOURNAL ALMANAC.—A copy of the 1899 Courier-Journal Almanac has been received. It is a very valuable reference work for information not readily accessible except by much research and is worth many times its price of 25c. Among the features of special interest are the lists of officers of the four volunteer Ky. regiments, the State government, political organizations, vote at the late election, history of the Spanish war, and so on. There is so much useful information in it that it is a wonder how a book like it could be sold at the price. Send a quarter to The Courier-Journal, Louisville, Ky., for a copy.

Call and get prices on Buggy Robes, Hames, Saddles, Bridles and Gearing.

JAMES MYERS' ANNOUNCEMENT.—James Myers has announced himself a candidate for the Democratic nomination for County Superintendent of Public Schools. Mr. Myers is a son of Joseph Myers, one of the most popular and best known men in Licking Valley in this section. James resides at Wyoming. He is about thirty years old. He has been a Democrat all his life and is a bright, but modest, and finely educated young man. He has followed the profession of public school teacher for several years and is no doubt finely qualified for the position.

He asks the Democratic voters to nominate him. He is a steady, sober, discreet married man, being a son in law of Dr. Wm. E. Phillips, of Wyoming.

We have on hands a nice lot of good boxing lumber that we desire to close out at a very low price. Call on or address Wm. E. Housen, Olympia, Ky., for prices.

PRENDERGAST LUMBER & COAL CO.

O. P. SHULTZ'S DEATH.—O. P. Shultz, aged 79, died at his home at Howard's Mill February 14, 1899. He leaves 8 children and numerous grandchildren to mourn their loss. He was a member of the Christian church at Old Union, near his home. He was dearly loved, and will be missed by all that knew him.

Our beloved has passed away. Has gone above to endless day. God, who knoweth all things best, has taken our loved one home to rest.

For rest he sought and did receive; Then let crushed hearts cease to grieve; Now with the angels is his home, Where he will wait for us to come; Then let each one prepare to die, And try to meet our grandpa there.

GRANDDAUGHTER.

Young married couples that expect to go to housekeeping in the near future make a great mistake if they don't see Brother & Goodpaster's new line of clocks that keep good time, dishes, tubs, buck ets, churns, lamps, etc., before they buy elsewhere.

TO REPAIR THE TURNPIKES.—The Fiscal Court met here Monday and adopted a plan to keep the turnpikes of Bath county in repair. There are to be 150 miles of turnpike miles of such roads. The plan is as follows: The county is laid off into five turnpike districts. The Magistrates elected themselves Turnpike Commissioners, each Commissioner to manage the repairs, etc., on 30 miles of turnpike, and is to be allowed \$3 per mile or \$90 per year salary. The repair work is to be done by the contract system, the funds to all pass through the hands of the County Judge. GREAT STOCK PAPER.—Those of our readers who have been receiving copies of the Live Stock, Lexington, Ky., have seen the merits of the journal and no doubt many would like to subscribe for it regularly. The Outlook's interest in the matter of taking subscriptions for the Live Stock is to induce subscribers to pay up arrears, and a year in advance for THE OUTLOOK, upon which condition we will take subscriptions for THE OUTLOOK and the Live Stock for \$1.30, strictly cash in advance. One gentleman, perhaps the best informed horse man in this section, came in and subscribed and remarked that the Live Stock was the best publication of its class that he had ever seen. He was very enthusiastic about it. Another gentleman came in and subscribed and was quite warm in its praise. The regular price is 50 cents a year. You get it for 30 cents by taking clubbing rates.

W. P. PERRY'S ANNOUNCEMENT.—In this issue appears the announcement of Woodson P. Perry as a candidate for the Democratic nomination for School Superintendent. Mr. Perry has served in the same office by appointment since the first of January, 1898. He is a native of Bath Co., Ky., where he lived until his family were nearly all dead. He then moved to Illinois in 1877. There he and his wife disagreed, he going to Missouri, where he remained two years. During his absence his daughter married. When he returned he made his home with her until all moved to Oklahoma, after which he made his home with his son James until the time of his death. He was the last of seven in family. The dispatch of his death was quite a shock to his daughter, as she intended going after him. As her mother, who is living with her, was very poorly with a gripple she had not got off. He intended spending his last days with her. She had a letter from him the week previous to his death saying he was very poorly. He had seven in family. All survive him except John E., who passed away four months and 2 days previous to his father's death. The surviving ones are Mrs. J. A. Ensminger, William G., James W., and Ulysses G., of Oklahoma; Joshua T. and Philip S., of Bath county, Ky. He leaves seventeen grandchildren and one great-grandchild. He was of a lively, friendly disposition and one who would make and retain many friends anywhere.

Lo! the pain of life is past, And his warfare now is o'er; Death and suffering are no more. CONTRIBUTED.

Col. Fleming was a prominent farmer and quite a man of affairs while he lived in this county. He was of an ardent nature and put his whole soul into his likes and dislikes. Yet he was a most amiable man, had a large acquaintance and many friends. The Outlook people had a sincere friend and admirer in him. He was a most excellent quality, and mourn his death as that of a good and useful citizen.

Meningitis Cured.—Morgantown, Ky., Feb. 18.—(Special to Courier-Journal.)—The Morgantown Republican in its current issue prints the following: Judge W. H. Fuller is in receipt of a letter from Attorney C. T. Atkinson, of Bardstown, Ky., who has heard of our meningitis epidemic, and very kindly offers a remedy which was given him by a leading physician of Benton Harbor, Mich., who in a long practice with the disease has never lost a patient. The remedy is as follows:

"Boil enough Irish potatoes with skins on (till done) to fill a pillow and place the patient on the slip with back of head and spinal column resting on the slip filled with the potatoes as hot as can be borne, and let the patient so remain as long as the potatoes retain their heat, and repeat if necessary."

Mr. Atkinson adds that this treatment does not affect the usual medicines, etc., administered in such cases.

A laundered collar with edges like a cross-cut saw is very unpleasant to wear. Bob Brother's laundry has machinery that polishes the edges. Try it once and see the difference.

FRUIT PROSPECTS.—H. F. Hillenmeyer, the Lexington nurseryman, says:

"Of course, the injury to the fruit crop caused by this severe weather has not yet estimated and can not be accurately estimated until the soil has broken and it becomes warmer. I think, however, I can state positively that the peach crop is entirely destroyed throughout the State."

"The apples are not damaged; neither are the pears. Grapes have suffered severely, but will nevertheless yield a good crop. Cherries are probably somewhat damaged, though it is hard to estimate to what extent."

"The raspberries are apparently safe. The strawberries are snug and the snow has really helped them very much. I am rather apprehensive of the damage to the blackberries that will result. An interesting fact is that there are more bushes of blackberries eaten in Kentucky per year than there are of apples. Hence the loss of this crop would be a severe one. However, I do not apprehend so serious a result, although there is unquestionably some damage done to the bushes."—Lexington Herald.

LABORERS WANTED.—We want 15,000 ties made within the next two months. Will pay good price to makers. Apply to Wm. E. Housen, Olympia, Ky., for prices and specifications. Respectfully, PRENDERGAST LUMBER & COAL CO.

ELI FLEMING'S DEATH.—Eli Fleming died of a gripple at the home of his son James at McLeod, Okla., at 5 o'clock Tuesday morning, January 31st. The burial took place in the McLeod Cemetery at 12 o'clock Wednesday, February 1st, only three of his children being present. He had been sick several weeks, but was thought to be convalescing. Deceased was a son of G. W. Fleming, who died when Eli was 19 years old. He was born March 19th, 1828, near Sharpburg, Ky., where he lived until 1851, then he married Miranda Tackett, daughter of Rayless Tackett, of Bath Co., Ky., where he lived until his family were nearly all dead. He then moved to Illinois in 1877. There he and his wife disagreed, he going to Missouri, where he remained two years. During his absence his daughter married. When he returned he made his home with her until all moved to Oklahoma, after which he made his home with his son James until the time of his death. He was the last of seven in family. A colored debating society had this week a subject under discussion: "Which is the most useful, the sun or the moon?" After considerable wrangling on both sides, the Judge, an old negro, promptly decided that the moon was most useful, as it "shined at night when people needed it, while the sun only shined in the day when they could do without it."—Ex.

An exchange says that a gentleman invited some friends to dinner and as the colored servant entered the room he accidentally dropped a platter which held a turkey. "My friends," said the gentleman in a most impressive tone, "never before in my life have I witnessed an event so fraught with disaster in the various parts of the globe. In this calamity we see the downfall of Turkey, the upsetting of Greece, the destruction of China, and the humiliation of Africa."

Miss Myrtle Vice, a charming and vivacious young lady who has been visiting relatives in Clark and Nicholas Co., returned home Saturday, accompanied by her brother Willie.

I think it very unbecoming and un-Christianlike for correspondents to be writing insulting letters to one another through the paper. It looks like the older people ought to be giving better advice to the young.

[Delayed.]

Mrs. Arthur Waller has been very sick, but is somewhat better.

T. M. Garner and wife visited his brother Mason, on White Oak, last week.

Blocks of ice 100 feet wide and from 5 inches to a foot thick floated past New Orleans in the Mississippi Feb. 15th, it being the first time river ice ever reached that far south in the memory of the people.

Something for Nothing.

We have heard of the boy who wanted to eat his cake and keep it too, but never before of a business man who sold his goods and then gave the purchaser credit for the amount paid. To learn about this send to JAMES VICK'S SONS, of Rochester, N. Y., who agree to do this in their Guide. The Golden Wedding edition of Vick's Garden and Floral Guide is certainly an artistic work, with its twenty-four pages lithographed in colors, and nearly one hundred more pages filled with handsome half-tone illustrations, photographed from Flowers, Fruits, Vegetables and homes.

While this Guide is really too expensive to give away, they give it with a Dull Bill for 25 cents worth of seeds for only 15 cents. Another new feature is the doing away with the old packet of Vegetable Seeds and stating the quantity in each case, the buyer getting more for his money.

Farmers.....

I am not "closing out in the next sixty days to quit," but I will give you better goods at lower prices than those that are. I will still be here to see that the goods give satisfaction. I will save you money on Plows and Plow-gearing. The VULCAN is the best Chilled Plow. BRINLEY is the best Steel Plow. HALL'S is the best Hillside Plow. I have saved you a good many fifteen cents on each OLIVER Plow Point and have plenty of them at the low price. Come and price my home-made Breeding, Check Lines, Blind Bridles, &c., and save money. When you buy Saddles, Harness, &c., from me you buy direct from the manufacturer. I am yours always ready to please.

His Peculiar View.

"Doesn't it sometimes make you gloomy to hear the wind howling about on a wild night?"

"No," answered the man with a careworn face. "I rather like to hear it. The wind doesn't come up and ring your door bell and ask how that bull, or tell you you'll get arrested if you don't take your dog. It doesn't sing 'I Won't Go Home 'Till Morning' away off the key and disgrace the neighborhood. It howls because it enjoys it. But it never says anything to hurt anybody's feelings. I sometimes honestly wish that there was more wind in this life and less people."—Washington Post.

One Policy of Territorial Expansion.

Extreme annexationists are advocating the addition of Canada to this country, and think it can be accomplished in a peaceful manner without exciting a quarrel with England. Such grave questions call for the wisest statesmanship, and the wisest statesmanship is to be found in the policy of a thorough reliable remedy like the Little's Stomach Bitters. No experimenting should be done with untried medicines when an old established preparation is to be had.

What Caused the Fracture.

Hanson—Did you hear about Stewart? He is suffering from a broken jaw.

Billings—That's what I heard comes to me. But it wasn't a fracture. It was a fall. A tangle with the dialect, you know.—Boston Transcript.

"Doesn't it sometimes make you gloomy to hear the wind howling about on a wild night?"

"No," answered the man with a careworn face. "I rather like to hear it. The wind doesn't come up and ring your door bell and ask how that bull, or tell you you'll get arrested if you don't take your dog. It doesn't sing 'I Won't Go Home 'Till Morning' away off the key and disgrace the neighborhood. It howls because it enjoys it. But it never says anything to hurt anybody's feelings. I sometimes honestly wish that there was more wind in this life and less people."—Washington Post.

Fined the Dollar and Imprisoned One Hour for Refusing to Answer in the Taking of Depositions.

LOUISVILLE, Ky., Feb. 16.—George W. Hutchinson, of the Louisville Building and Loan association, was Tuesday fined \$1 and sent to jail for one hour for contempt. Miss Susie Gardner, a sister of Mrs. Bailey, was teaching school at Morgantown when the disease made its appearance there, and with the others, she fled from the town, taking her abode at the home of her brother-in-law, Mr. Bailey. Soon thereafter she was stricken with the disease, and very soon all three of the Bailey children were suffering from it.

She was feeble and lived only one hour after being found.

THURSDAY, FEB. 23, 1899.

The House settled the fate of the Niagara Canal bill for this session last week.

LEXINGTON'S good people are very much wrought up over the killing of Jacob Keller by McNamara.

Up to Feb. 15th an epidemic of cerebro-spinal meningitis in the city and county of Henderson, Ky., had killed 25 people.

On Monday the House passed the bill appropriating \$20,000,000 to pay Spain for the Philippines by a vote of 219 to 34.

The North Carolina legislature voted to submit to the vote of the people a constitutional amendment that practically disfranchises the negro vote.

SENATOR QUAY is up against the thirteen superstition. He lacks that number of votes of an election by the Pennsylvania legislature to succeed himself.

The moralists are making it uncomfortable for Congressman-elect Brigham H. Roberts, the Utah Mormon. Roberts has the misfortune to contend with that he belongs to the minority party.

A MEMBER has introduced a bill in the Wisconsin legislature to prohibit tight lacing. No doubt a considerable minority will seriously favor the bill. There is nothing of that sort of meddling too absurd to receive support in the average legislature.

The Tennessee legislature shows its disposition to tax the railroads heavily by a bill requiring a mileage, as well as ad valorem, tax of \$5 per mile for roads under 125 miles long, and \$25 for roads over 125 miles.—That will hit the Black Diamond—when it is built.

The appropriation of \$20,000,000 to pay Spain for the Philippines was defeated in the House on a technicality last week, but it may yet be made. If not done by this Congress an extra session will probably be necessary for that purpose. It was foolish to defeat it.

The committee has called a convention to meet at Richmond May 24 to nominate a Republican candidate for Railroad Commissioner from the 3d district. The incumbent, John C. Wood, of Mt. Sterling, is a candidate and seems to have a practical walkover for the nomination, as well as election, the district being overwhelmingly Republican. The county conventions will be held April 15th.

JUDGE JOHN W. BARR, being over 70 years of age, has resigned on full pay from the office of U. S. District Judge for Kentucky. There are many aspirants to succeed him, among them being Congressman Pugh, of this district.

There is a glut of gold in the banks of New Orleans, New York, Cincinnati, Chicago and Kansas city and the banks are asking the Treasury to exchange paper currency for it. That shows the restoration of confidence.

Boston, with all of its culture and refinement was disgraced last week by an exhibition of hoodlums while President McKinley's party was parading through the streets. Some of the blackguards hooted and jeered at Secretary Alger in a most insulting way.

EMILE LOUBET, a sound Republican, was elected President of France by a vote of 483 to 279 cast for Melme. All of Loubet's votes were Republicans. The choice is generally conceded to be the best for France in her present distracted state.

The campaign fund of the silverites for the 1900 campaign is to be swollen by a percentage of the profits of a cigar named "Jefferson," named after the President.

Next strawberry, oyster and ice-cream suppers, rallies, etc., will be in order for the same purpose.

The Populist Senate of Kansas has passed a bill fixing barbers' rates. A Senator ridiculed the bill by presenting amendments that no person should be allowed to shave himself without the written consent of the majority of a board of barber commissioners, and under no circumstances should he be allowed to cut his own hair or trim his own beard except by special act of the legislature; making the act apply also to the clippers of horses and the shears of sheep. The amendments were defeated, but they were as meritorious as the main bill.

The Fourth Kentucky was determined to have a run for its money, even after it ceased to exist as a military organization. The shooting of Col. Colson by Lieutenant Scott was highly sensational. Some of the boys on their return from the road are charged in the dispatches with terrorizing the trainmen and shooting some of the cars plumb full of holes. The trainmen liken the boys to Apache Indians. No doubt if they had been given a chance against the enemy on the field of battle they would seem a veritable human tornado to the dons.

PRESIDENT FRANCOIS FELIX FAURE, of France, died of apoplexy at Paris last Thursday. He rose to step from the ranks of the humble classes into which he was born. Of acknowledged great abilities, it is said that it was his weakness—his very harmful to France—to have a reverence for the customs, etiquette and general observances of the old courtly times of France and was enamored of royalty, simply because it was royalty, wherever he encountered it. His example was such as to discredit republicanism, although by the latter he rose to eminence.

MANY years ago Muhlenburg county, Ky., with a spirit more progressive than discreet issued bonds in aid of the construction of the Elizabethtown & Paducah railroad. In the issue the citizens felt that they had been grossly deceived and for a while threatened very serious war against paying of the bonds under judgment of the Court. The bondholders lided their time until the warlike demonstrations should cease. Last week the U. S. Marshall was given execution amounting to about \$50,000 to serve on the county. No matter how much the people may be hoodwinked or swindled a subscription to a railroad goes in a court for its face value and its collection is as certain as fate in time if the subscribers have property that may be levied on to satisfy a judgment.
